# OUR HISTORY

**Conejo en la Luna: more than a mezcalería, a cultural and gastronomic experience.**

**Founded in 2017 in Teotihuacán, State of Mexico, Conejo en la Luna was created with the purpose of promoting traditional mezcal and honoring Mexican culture from its roots. Its first location, set against the impressive pre-Hispanic landscape, allows visitors to immerse themselves in a sensory experience—from tasting traditional mezcals to visiting the distillery and the maguey garden.**

**Over time, the brand has become a benchmark for traditional mezcal in Mexico City, opening iconic locations in Colonia del Valle, Condesa, Roma, Lomas de Chapultepec, and Alfa. Its concept combines contemporary Mexican cuisine, signature cocktails, and a carefully curated selection of more than 20 varieties of mezcal crafted by producers from different regions of the country.**

**The brand's mission is to be a gathering place for those who enjoy traditional mezcal and Mexican gastronomy; its vision is to share the country's cultural richness through an authentic experience.**
