PETITION TO THE NATIONAL ASSEMBLY OF BOTSWANA (ORDER 35(2)

Summary:

A petition has been submitted to the National Assembly of Botswana urging urgent action against gender-based violence (GBV), which affects over 67% of women in the country—double the global average! The petition calls for the establishment of Peace Desks at magistrate courts and police stations to protect GBV victims and survivors, amendments to the Domestic Violence Act to make justice more accessible, and a gender-focused national budget to promote equality. It also appeals to MPs to prioritise GBV prevention in their legislative roles.
